**Salaries**

(The majority of trusts will make a contribution to salaries associated with the project they are supporting e.g. if an education manager is spending 40 days on the project then the cost of these days ought to be added to the project budget – as well as other overheads, national insurance and pension contribution)

These trusts will support salaries (this list is not exhaustive and discussions with trusts is advisable.) Some trusts will only support new positions, others will support existing roles.
